The Local SEO Client-Getting Kit

Land £25–£150 local clients from zero — the free-gift outreach system

The Local SEO Client-Getting Kit

Everything you need to land £25–£150 local SEO clients from a standing start — the "free gift" outreach system, the AI generators that do the work, and the pricing ladder that turns a £0 favour into recurring income.

Target niche: local service businesses — plumbers, roofers, electricians, dentists, salons, gyms, cafés, tradespeople. Businesses that live and die by "near me" searches and have money but no time.

The whole business model on one page

1. **Find** local businesses with weak Google presence (missing meta tags, no Google Business posts, thin listings).
2. **Give first** — send 5 genuinely useful meta descriptions or a mini-audit, free, no catch.
3. **Convert** the goodwill into a paid audit or fix (£25–£100).
4. **Retain** with a monthly "local visibility" service (£50–£150/mo) — the real money.

You need zero qualifications, zero ad spend, and an AI assistant to do the heavy lifting. What you're selling is *attention and follow-through* — the two things busy owners don't have.

PART 1 — Finding prospects (the 15-minute list)

Search Google Maps for "[service] in [town]" and look for businesses that show these **weakness signals** (each one is a sales hook):

- Search snippet shows a truncated or generic meta description (or none).
- Google Business Profile has no recent posts, few photos, or unanswered reviews.
- Website is slow, not mobile-friendly, or missing a clear phone/CTA.
- They're on page 2 for their main "[service] near me" term.
- Reviews are good but sparse (they do great work but are invisible).

Build a simple sheet: Business name • Owner name (from the site/Google) • Email • The one weakness you'll lead with. **20 prospects is a day's income.**

AI prompt — Prospect weakness finder

```
Role: Local SEO consultant.
Task: I'll paste a business name, town, and website. Identify the single most visible
SEO/local-visibility weakness a customer would notice, phrased as a one-line hook I can
use in a cold email. Be specific and non-generic.
Business: [PASTE]
```

PART 2 — The AI generators (your unfair advantage)

Generator 1 — Meta descriptions (your free gift)

Role: Senior local SEO consultant.

Task: Write 5 search-optimised meta descriptions (150–160 chars each) for [BUSINESS] in [CITY], a [BUSINESS TYPE].

Each must include a local keyword, a benefit, and a clear call-to-action. Cover: Home, Services, About, Contact, and one key service page.

Output as plain text I can paste straight in.

Generator 2 — Google Business Profile posts

Task: Write 4 Google Business Profile posts for [BUSINESS] in [CITY] – one offer post, one update, one tip, one review-request nudge. Under 1,500 chars each, local keywords woven in naturally, each with a CTA.

Generator 3 — Review-response writer

Task: Write warm, professional responses to these customer reviews for [BUSINESS] [PASTE REVIEWS]. Respond to good and bad. Naturally include the town + service once per response for local SEO. Never sound copy-pasted.

Generator 4 — Local keyword map

Task: List the 15 highest-intent local search terms a [BUSINESS TYPE] in [CITY] should rank for, grouped into "emergency/urgent," "service," and "research" intent. Flag the 3 easiest quick wins.

Generator 5 — On-page fix list

Task: I'll paste a local business homepage. Give me a prioritised list of on-page fixes (title tag, H1, NAP consistency, schema, internal links, CTA placement) with the expected impact of each. Plain English so a non-technical owner understands.

Page: [PASTE]

PART 3 — The outreach templates (that get replies)

Email 1 — The Free Gift (primary)

Subject: 5 free Google descriptions for [BUSINESS NAME] (no catch)

Hi [OWNER NAME],

I was looking at [service] businesses in [CITY] and noticed [BUSINESS]'s Google snippet is missing optimised meta descriptions – which quietly costs you clicks to competitors above you.

So I wrote 5 for you, free:

1. Home: "Top-rated [service] in [CITY]. Fast call-out, fair pricing & 5-star reviews. Call today for a free quote."
 2. Services: "Professional [service] in [CITY]. Certified local experts, 100% satisfaction guaranteed. Book online or call now."
 3. Contact: "Get in touch with [BUSINESS] in [CITY]. Local support, quick response & free upfront estimates."
- [+2 more from the generator]

Paste them straight into your site – they're yours regardless.

If you'd like me to optimise every remaining page and tidy up your Google listing so you rank higher for "[service] in [CITY]," I do that for a one-off £[49]. Just reply and I'll send a simple payment link.

Best,
[YOUR NAME]

Email 2 — The Follow-Up (3 days later)

Subject: (reply in the same thread)

Hi [OWNER NAME],

Did the meta descriptions land ok? Happy to tweak any to match your tone.

If you want, I'll also send a quick 3-point list of what's holding your Google ranking back – free, no obligation.

[YOUR NAME]

Email 3 — The Value Bump (4 days later)

Hi [OWNER NAME],

One more freebie: I noticed you've got [X] Google reviews with no reply. Responding to them (I can write them for you) actually lifts your local ranking – Google rewards active profiles.

That's part of the monthly visibility service I run for local businesses (£[75]/mo, cancel anytime). Worth a quick chat?

[YOUR NAME]

Email 4 — The Break-Up (final)

Subject: closing the loop

Hi [OWNER NAME],

I'll stop cluttering your inbox – but the free descriptions are still yours to use.

If getting found on Google ever moves up your list, just reply and I'll pick it straight back up. All the best with the business.

[YOUR NAME]

PART 4 — The pricing ladder (from £0 to recurring)

Step	Offer	Price	What you deliver
Free gift	5 meta descriptions	£0	Generator 1 output
Entry	Full meta + title optimisation	£25–£49	All pages via Generators 1 & 5
Core	Site + Google Business audit & fixes	£75–£150	On-page fixes, GBP posts, review responses
Recurring	Monthly local visibility	£50–£150/mo	4 GBP posts, review replies, monthly report
Premium add-ons	Local content, citations, extra pages	£25–£75 each	Upsells on the monthly

The maths: land just 5 monthly clients at £75 = £375/month recurring, delivered in a few hours with AI doing the drafts. That's the goal — the one-off jobs are just how you earn trust to get there.

PART 5 — Delivery & scaling

- **Deliver fast.** Same-day turnaround on the paid audit is your biggest differentiator against agencies that take weeks.
- **Screenshot the before/after** of their Google snippet. Proof sells the next client.
- **Ask for a testimonial** the moment they say "that looks great."
- **Systematise:** save every generator output. By client 10 you'll have a template library that makes each new job 20 minutes.
- **Stay honest:** only promise visibility improvements you can influence (on-page, GBP, reviews). Never promise "#1 on Google in a week" — that's the pitch of scammers and it burns trust.

The one-page cold-email checklist

☐ Personalised first line about *their* business ☐ Real free value included (not just an offer of value) ☐ Under 120 words ☐ One clear, low-pressure CTA ☐ Real name + signature, plain-text ☐ Followed up 3–4 times ☐ Sent Tue–Thu, morning
